Improve your Tally.ERP9

Take your Tally.ERP9 software usage and proficiency to the max by using these must have modules.

Alteration History

This module helps the company keep track of when and where specific files have been used and/or opened along with which persons have had access to the files. This will help ensure that company time and property are used efficiently.

Alteration History

How can this further help you?

- Quietly keep track where and when sensitive files are accessed including who has had access to the sensitive files
- Alteration History records can quickly be filtered out in accordance to voucher type and/or access date

Alteration History

How can this further help you?

- Instantly produce complete records which detail when and where files were accessed and by whom
- Maintain confidence in your company's security and reliability since you have the power to access this crucial data anytime
