

A top-down view of a person's hands working on a laptop on a wooden desk. The scene is overlaid with a blue-to-green gradient. The laptop screen displays a form titled "APPLICATION FOR PERMIT". To the left, there are documents, one with a pen and another with a "CHOICE" logo. To the right, a smartphone is on a document. The person is wearing a watch and a suit sleeve.

## Improve your Tally.ERP9

---

Take your Tally.ERP9 software usage and proficiency to the max by using these must have modules.

## Authorization Module

---

The Authorization Module helps you ensure that all data entries into your company's system are checked and verified before they are reflected within your records. This module will help you keep a watchful eye over what goes in and out the company's records therefore helping you avoid costly mistakes and making sure that your financial records log are kept well guarded.

## Authorization Module

---

How can this further help you?

- The administrator of the module can set minimum and maximum value ranges for data entry before final verification
- Remarks/comments can be required for every stage of voucher approval
- An easy to use Authorization Dashboard will be made available for the administrators

## Authorization Module

---

How can this further help you?

- Users and administrators have real time access for tracking voucher status
- Every voucher can be tracked for archival or any other purpose
- Multiple transactions can be authorized with the power of a single click
- Transactions can be rejected anytime if deemed necessary by the administrator
